

MIS & Data Analytics Portfolio

Welcome to my professional portfolio. This repository showcases my expertise in Management Information Systems (MIS), Data Analysis, Advanced Microsoft Excel, Reporting, Administrative Operations, and Data Management.

About Me

I am a results-driven **MIS Executive** and **Data Analyst** with over **2 years of experience** in data management, administrative operations, documentation management, recruitment support, and reporting within the education sector.

I specialize in transforming raw data into meaningful reports and dashboards that support business decisions and operational efficiency.
